## Course Overview

The Anatomy Course is designed to give art students a thorough understanding of the human body's structure, enhancing their ability to render realistic and expressive figures. Focusing on the skeletal and muscular systems, this course breaks down complex anatomical forms into manageable segments, covering the proportions, shapes, and functions of each body part.

## Course Content

- Introduction to human body proportions and basic skeletal structure.
- Hand Anatomy and Drawing Techniques.
- Study of hand anatomy, including bone and muscle structure.
- Focus on conveying expression and movement through hand positioning.
- Foot anatomy and drawing techniques.
- Understanding the proportions and arch structure of the foot.
- Basic structure and proportion of the human body.
- Techniques for achieving accurate balance and symmetry in body sketches.

## Course Delivery Method

Classroom

## Learning Outcomes

By the end of this course, students will be able to:

- Gain a deep understanding of the skeletal and muscular systems, including the structure, proportions, and functions of various body parts.
- Learn to depict realistic body dynamics, showing an understanding of balance.
- Strengthen their ability to observe and translate subtle details in the human form.
- Incorporate anatomical principles into their figure drawings, simplifying complex structures for quick sketches while retaining anatomical integrity.
- Develop a confident approach to figure drawing that supports both classical and contemporary art practices.

## **Requirements for Successfully Passing the Course**

- Commitment to attend the training course and not to exceed the permitted absence rate, which is 15% of the number of hours for the training course.
- Submission of the course project.
